

Please don't allow the K-Love radio station to be replaced by a LPFM station. The K-Love radio station offers family values, uplifting music that can be listened to by the whole family. Having K-Love offered to our community offers anyone the ability to listen to this kind of music and enhances the positive values all communities strive to have their people to have. Anyone who is lost or is searching for some positive reinforcement in their lives can tune in and be blessed. I listen to this station all the time and would be terribly disappointed if it was taken away as I'm sure many people would be. Thank you K. Egeland
